W. J. Drewes Promoted by Penney Company

W. J. Drewes, local manager of the J. C. Penney & Company's store, will leave in about two weeks, accompanied by his wife, for Oswego, New York, where he will become manager of a new store to be established in that city by the Penney interests. At the present time the Penney company has a chain of 312 stores in 27 states, but the invasion of New York has been decided upon and 59 new stores will be established. The promotion of Mr. Drewes will be received generously by residents of Tonopah, although his many friends will regret to learn that he and his wife are to leave this town.

PERSONAL

E. MARKS, the Main street merchant, has gone to San Francisco on a hurried business trip.

WILLIAM M'MAHON, route agent for the American Railway Express company, is an official visitor to Tonopah.

HARRY McNAMARA has gone to San Francisco, the trip being made in the interest of the Lucky Boy Divide Mining company.

T. C. LINK and HENRY HANSON who own the Silver Horn group of claims at Hornsilver, have returned to resume development upon their holdings.

OWEN MURPHY, superintendent of the Rosetta property at Hornsilver, left today for that camp after spending a day here looking after business matters.

A. E. LOWE, accompanied by N. C. Gorder, mining engineer of San Francisco, was at Goldfield yesterday making an examination of the Silver Peak property.

E. E. McMICHAEL, superintendent of the American Railway Express company for the northern division of California and Nevada, expects to leave here tomorrow morning for his headquarters in Sacramento. Mr. McMichael came here to investigate the disappearance of the bar of bullion at the depot last Thursday morning.

REV. J. D. O'BRIEN, O. P., who has been conducting missions here at the Catholic church, has returned to the coast. Rev. O'Brien, who is middle-aged, does not look the part, but on the other hand few would take him to be over 35 years of age. He made a most favorable impression while here and his departure was sincerely regretted.

AIRPLANE RECORD IS ESTABLISHED IN WEST

By Associated Press
SAN FRANCISCO, Calif., Mar. 28.—Records made by the western division of the air mail service for keeping up to schedule for care of its planes and for lack of accidents are used as criteria by other divisions of the country, according to A. C. Nelson, of Salt Lake City, the division superintendent, who was a recent visitor here.

Despite more adverse flying conditions between San Francisco and Reno than any in the country, the planes are always on time, Nelson said, while there never has been a casualty in the western division that can be traced to negligence in the care of the planes, faulty equipment or negligence on the part of the pilots. Postal department data, he declared, showed a record of 352,800 miles for each casualty in the western division, against 94,084 miles in the other divisions.

Out of the seven planes originally assigned to the transcontinental service, four of them are still in active operation in the western division, according to Nelson.

SCHOOL ELECTION IN DIVIDE GROWS WARM

Five candidates for school trustee in the Divide district have filed nomination papers with County Clerk H. C. Robertson of Goldfield, and as a result there promises to be a lively contest at the election to be held on next Saturday. Gus Hanson, superintendent of the Brougher Divide, has filed for the long term, as has H. J. Stevens. For the short term there are three candidates in the persons of Fred J. Waugh, Stephen M. Jarret and Dave Coleman.

NOTICE MOOSE.

A full attendance requested, for tonight at 7:30 at I. O. O. F. hall. Nomination of officers and installation.

M-28-11 FREED STEEN, Dictator

REWARD

A reward of \$100 will be given for the recovery of bullion stolen Thursday morning from the American Express company truck, and \$100 additional reward for information leading to the arrest and conviction of the thief. M24-11

E. E. McMICHAEL, Supt.

DESERT WORKERS.

Meeting tonight at the gymnasium; first section at 6:30; second section at 7:30. Business, boxing, games and lunch. Bring that sandwich. LEROY DAVID, Pres.

READ TODAY'S NEWS WHILE IT IS FRESH

The Bonanza is now delivered by carrier for \$1 a month. Enter your subscription and read today's news while it is red hot. Why wait until tomorrow to read what is happening today? The Associated Press dispatches received by this paper take you through the happenings of the world of this day, and all news in the morning publications is simply a rehash of what has happened the day previous.

MINING MUST COME BACK TO SAVE COUNTRY

(Continued From Page Three)

back up the effort to get the supply that is idle in the mines.

While there are many small depositors with bank accounts, these depositors will not withdraw their money unless they can be assured of an income. And when the public patronage is at low ebb, the only sure income is the one that can be dug from the ground, and which does not depend upon society or the public.

Every indication, from every angle of analysis, points toward a growing mining activity, that will continue to increase steadily for at least the next five years.

If the mines do not save the country from the industrial stagnation, caused by the stagnant pools of over-issued paper money, nothing can save this country from sinking into the condition of "paper money Russia," which has no metal to back its billions of bolshevik currencies.

Russia has more taxable property, and more acreage of taxable land, than the United States, but there is nothing to pay the taxes with except her own worthless paper.

U. S. Russian paper money would be as good as gold if you could take it to any bank and get the gold for it. The country that refuses to mine its gold in the belief that it can live on credits and paper notes will come to the same end as the lazy man who refuses to work for money and tries to live on credit and promises to pay.

The country that goes to mining, and makes its paper worth gold, will find other countries striving to get its money, selling raw material and everything to get the money of the country that is as good as gold. Then they will have gold with which to buy our manufactured products, and this country will become a beehive of industry. With the ship subsidy, proposed by the president, we can then lay our manufactured and farm products down in the foreign markets in competition with any other country.

New York will then become the silver market of the world, for the ships going to foreign ports for cargoes will buy their chests of silver in New York. The demand for this great amount of silver in this country will cause the Rothschilds supply to become drawn into the New York market and silver will climb even higher than the present price.

What makes the demand for silver? Thirty thousand merchant ships going after world cargoes and buying their silver in England makes the silver market. That is why England controls the silver prices, and to boost it along even our own ships and those of other nations buy their silver in England. A merchant marine of our own, under subsidies that will build it bigger than England's, or draw England's ships to fly the United States flag will bring the silver, grain, hides, rubber and manufactured goods to the United States market.

The public press frequently comments upon the fact that the United States banks and depositories hold about 35 per cent of all the gold in the civilized world. Notwithstanding, we have many times more I. O. U.'s in circulation—paper money—than we have gold to pay it. Suppose you had half the money in your town locked up in your vault, but if you owed 100 dollars in notes for every dollar of gold you had in the vault, your credit wouldn't be worth very much in spite of all the gold you had. You couldn't buy to very good advantage keeping the gold locked up for a flash roll, and offering your cheap paper "as money" when everybody knew you had more paper out than you had money to take it up.

If you want a pair of shoes that you could have bought for \$5 a few years ago, when your paper was "good as gold," you cannot get them because your paper isn't as good as gold any more. The shoes will last as long, but the paper money cannot be exchanged for gold. If you expect the H. C. L. to come down, you'll have to make the money worth more. You can't expect gold prices, if you tender I. O. U.'s and paper promises to pay.

The answer is back to the mines, or the nation stagnates.

STATE BANK HEARING IS AGAIN POSTPONED

More dilly-dally tactics in closing up the affairs of the defunct State Bank & Trust company are being pursued by Judge Frank P. Langan, assisted by his Friday, Frank L. Wildes, the receiver. The final report of the receiver was to be filed yesterday, but for some reason the hearing went over until April 15. Whether this will affect the sale of the assets of the company, which was scheduled for April 10, is not known, but in all probability it will.

CLASSIFIED ADS

FOR SALE.

FOR SALE—4-room house and 2-room cabin, all fenced in; \$600.00. Phone 1624.

Dated March 22, 1922.
O. H. SMITH,
Chief of Police,
Town of Tonopah.

M21-11

THE BAKING POWDER QUESTION SOLVED

Most housewives proclaim that the baking powder question was solved for them the moment they used the first spoonful of Calumet. After that no doubt remained—no hoping—no searching for a perfect leavener—no wondering if bakings would "turn out all right."

CALUMET BAKING POWDER

has solved the question because in all these thirty years it has never failed to produce wholesome and appetizing foods at an economical cost. It is as pure and sure as any baking powder ever made.

Calumet is more economical than other brands selling for less because its quality is the highest—no losses from spoiled bakings.

Use Calumet once—that's enough to prove to you that it's "best by test."

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

OFFICERS SEARCHING FOR STOLEN BULLION

Curley Carr and C. J. Corr, who are held in the county jail in default of \$2000 bonds, and who are charged with the theft of the bar of bullion last Thursday from the truck of the American Railway Express company at the depot, will appear before Justice Cuddy to plead to the complaint on Thursday morning. While the bullion has not been found, the officers have reason to believe that it will be located.

The arrest of Carr and Corr resulted from the fact that they were seen at the depot early last Thursday morning, and the discovery that they later drove out on the Crow Springs road. Upon being questioned, they insisted that they had been to Royston, but it later developed that they had omitted Royston from their travels, but on the other hand, were near Crow Springs. Tracks from the auto they had driven were traced, but despite diligent search that was made for the bullion, the treasure was not located.

ASSESSMENT NOTICE

BEN HUR DIVIDE MINING COMPANY—Location of principal place of business, Tonopah, Nye County, Nevada. Location of property, Divide Mining District, Esmeralda County, Nevada.

Notice is hereby given that at a meeting of the Board of Directors, held on the 25th day of March, 1922, assessment No. 2, of two 1/2-cent shares, was levied upon the capital stock of the corporation, payable immediately in lawful money of the United States. Any stock upon which this assessment shall remain unpaid on the 26th day of April, 1922, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold at the office of the company, 214 State Bank Building, Tonopah, Nevada, on the 27th day of May, 1922, to pay the delinquent assessment, together with costs of advertising and expenses of sale. By order of the Board of Directors, R. J. KELLY, Secretary.

AMUSEMENTS

IT IS DANGEROUS TO LIE.

One of the best Paramount pictures thus far made in England with an English cast of players, is "Dangerous Lies," which will be shown at the Butler today. The story deals with the beautiful daughter of an English rector in a small town, who is forced to marry a man she detests and who has brought her father to ruin in a swindling mining scheme. When he flees to escape arrest and she hears of his arrest in South America, she marries Sir Henry Bond. Subsequently her first husband reappears and trouble follows. The ending, however, is quite happy. The theme shows the danger of lying when the truth should be told. The company portraying the various roles is excellent. David Powell playing the leading masculine role, and opposite him Mary Glynn. Added to the feature will be the latest Pathé Review.

Tomorrow, "Women Who Wait," a home-spun play of plain people, and a two-reel comedy, "The Skipper Has His Fling." Coming, the big Ince picture, "Hail the Woman."
